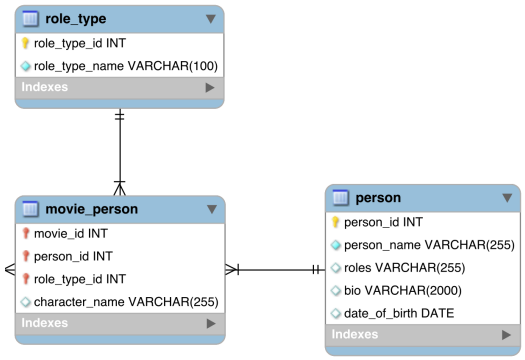
Opgave: Movie Catalog Normalisering

Opgaven skal gennemføres parvis.

1. Undersøg person ER diagram, schema og data. Kan implementeringen forbedres i forhold til normalisering?



```sql
CREATE TABLE person (
    person_id INT AUTO_INCREMENT PRIMARY KEY,
    person_name VARCHAR(255) NOT NULL,
    roles VARCHAR(255),
    bio VARCHAR(2000),
    date_of_birth DATE
);

CREATE TABLE role_type (
    role_type_id INT AUTO_INCREMENT PRIMARY KEY,
    role_type_name VARCHAR(100) NOT NULL UNIQUE
);
```

```sql
INSERT INTO person (person_id, person_name, roles, bio, date_of_birth) VALUES
(1,'Christopher Nolan','Director,Writer','Known for large-scale, puzzle-box narratives and practical filmmaking.','1970-07-30'),
(2,'Leonardo DiCaprio','Actor','Actor known for intense dramatic roles across genres.','1974-11-11'),
(3,'Joseph Gordon-Levitt','Actor','Actor with roles in indie films and big studio productions.','1981-02-17'),
(4,'Quentin Tarantino','Director,Writer','Director celebrated for dialogue-driven crime stories and genre homage.','1963-03-27'),
(5,'John Travolta','Actor','Actor known for iconic roles spanning decades.','1954-02-18'),
(6,'Samuel L. Jackson','Actor','Actor known for commanding performances and memorable lines.','1948-12-21'),
(7,'Frank Darabont','Director,Writer','Director associated with acclaimed prison and redemption dramas.','1959-01-28'),
```

2. Rediger person-tabellen og evt. andre tabeller, og opret andre tabeller efter behov for at opnå et bedre design.
3. Insert data i de nye tabeller.
4. List alle personer og deres role typer. Listen skal ligne:
